

# Atlas SLP-9K

9,000 lb. Capacity  
Full Rise Scissor Lift

# Atlas SLP-9K

## 9,000 lb. Capacity

### Full Rise Scissor Lift

#### DESCRIPTION:

The Atlas® SLP-9K full rise scissor lift combines an extremely low lift platform height and a 78 inch full rise scissor jack system. The SLP-9K is the perfect above ground lift for customers with ceiling height restrictions and the need for enough lift to raise pick-up trucks. This Atlas® full rise scissor lift is also perfect for service shops that want to avoid the cluttered look of dozens of vertical lift columns.

#### FEATURES:

- 9,000 LB. capacity
- 78" (6' 6") maximum lifting height
- Adjustable width
- 10 air actuated locking positions
- 220V single phase motor
- Open middle for easy access
- Locking approach ramps
- Zerk grease fittings at each hinge point
- Open middle for easy access
- 1 Year Structural and Hydraulic Warranty
- Separate Self-Contained Control Panel
- CE Certified
- Shipping Weight: 2400 lbs
